

Dear Campus Customers:

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, March 22, 2024, through Sunday, March 24, 2024.

We will be shutting down just after 12:00a.m. on Friday, March 22, 2024. Normal service will be restored no later than Sunday, March 24, 2024, at 11:00p.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant. The systems that will be affected during the shutdown will include building heat, industrial and domestic hot water, and steam generation for cage washers and autoclaves.

The chilled water supply for the buildings and process cooling will **not** be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings NOT affected by the Central Plant HTHW Shutdown:

|                                      |                                      |
|--------------------------------------|--------------------------------------|
| AIRB                                 | Irvine Hall                          |
| Beckman Laser                        | Law                                  |
| Berk Hall                            | Medical Education                    |
| Education                            | Med Surge I                          |
| EH&S                                 | Med Surge II                         |
| Gavin Eye Institute                  | Mesa Arts, Commons                   |
| Gillespie Research                   | Multipurpose Academic & Admin. Bldg. |
| Gottschalk                           | Multipurpose Science & Tech. Bldg.   |
| Gross Hall – No industrial hot water | North Campus                         |
| Hewitt                               | Plumwood House                       |
| Housing                              | Rockwell Engineering                 |
|                                      | Sprague Hall                         |

Please call Tony Garrit at 824-5140 or Mike Bonomo at 824-8715 for questions regarding this regularly scheduled shutdown. The Central Plant can be reached at 949-824-5520 for after-hours information.

Thank you for your continued support and understanding,
